

**Fresh. Bright. Natural.**

**T**he USANA lifestyle involves all aspects of your health, including your teeth and gums. Neglecting your oral health can be detrimental to your quality of life. Don't settle for over-the-counter, fluoride toothpastes.

At USANA, we don't take chances with your health. Our Natural Whitening Toothpaste doesn't contain the typical ingredients found in many popular types of toothpaste on the market today. Our formula contains no artificial colors, flavors, or sweeteners. And you can bet it's fluoride-free!

“I especially like our Natural Whitening Toothpaste for what it doesn't contain; several ingredients such as additives and fluoride. When you use Sensé™ Natural Whitening Toothpaste, you can be sure only natural, safe compounds are going into your mouth.”  
**—Dr. Myron Wentz**

What this refreshing, mint-infused formula does contain are antioxidants and vitamins for a healthy, beautiful smile. And silica is added for extra whitening benefits!

So when it comes to choosing natural, effective toothpaste for your family, choose USANA's Natural Whitening Toothpaste.
